MANAGEMENT DISCUSSION AND ANALYSIS REPORT

The management of Creative Casting Limited presents the analysis of the Company for the year ended March 31, 2016 and its outlook for the future. This outlook is based on assessment of the current business environment. It may vary due to future economic and other developments both in India and aboard. This Management Discussion and Analysis Report ("MD&A") of Creative Casting Limited, for the year ended on March 31, 2016 contains financial highlights but does not contain the complete financial statements of the Company. It should be read in conjunction with the Company's audited financial statement for the year ended on March 31, 2016.

TRADITIONAL PAST:

Casting is one of the oldest processes for shaping materials. A number of different casting processes that have been modified over and over again in the course of recent years are in use today, but the principle behind them is always the same. A liquid material is poured into a hollow mould, takes on the shape dictated by the mould and solidifies to form a semi-finished product or a finished product that is ready for immediate installation. Cores integrated in the mould create cavities inside castings. Practically all kinds of products can be manufactured by casting processes – particularly those that have complex geometry, interior cavities and a filigree internal structure, which cannot be made at all by other manufacturing processes. This explains why there are many different application areas for casting processes. Another advantage is that 100% of castings can be recycled.

Typical casting materials are iron and carbon alloys based on cast iron and steel – cast iron and steel casting not being one and the same thing – as well as non-ferrous metals based on copper, aluminium, magnesium, titanium, lead, tin, zinc, nickel and castable alloys of them. While castability is a general precondition for it to be possible to shape a metal material by casting, the material's individual properties – such as strength and ductility as well as resistance to fracturing, wear, corrosion, chemicals and high / low temperatures in addition to specific weight – are the key features that determine which material is chosen, in view of the subsequent application for the finished product.

SEGMENT-WISE OR PRODUCT-WISE PERFORMANCE:

Segment-wise detailed performance provided in the Notes to the financial statement.

OPPORTUNITIES & THREATS:

The liberalization of industrial policy and other initiatives taken by the Government like Tax exemption to SME Manufacturing industries etc. have given a definite impetus for entry, participation and growth of the private sector in the casting industry. While the existing units are being modernized/expanded, a large number of new casting plants have also come up in different parts of the country based on modern, cost effective, state of-the-art technologies. In the last few years, the rapid and stable growth of the demand side has also prompted domestic entrepreneurs to set up fresh greenfield projects in different states of the country.

The government is working proactively to provide incentives for economic growth by injecting funds in construction, infrastructure, automotive and power, which will drive the steel industry in the future. If the MAKE IN INDIA initiative by the Modi Government implemented in true spirit, there will be slightly boom in Indian market.

Different geographies follow separate business cycles; hence expanding the global footprint and establishing a global presence in some of the world's largest markets helps take advantage of the varying differential growth opportunities.

THREATS:

- Due to increasing competition and the presence of global players, the ability to attract and retain managerial talent and the
 availability of skilled and unskilled manpower is becoming a key issue. Improving the quality of human resource is also an issue
 for the industry.
- With increasing globalisation of markets there is potential competition from forging capabilities in other developed and developing countries. Hence R&D costs have to be increased substantially to add value to existing products and create new differentiated products.
- The commodity sector is highly volatile and changes in the cycle are hardly predictable. It thus becomes imperative to improve product mix and diversify business over long gestation industrial sectors.
- Additive manufacturing techniques are no longer in their infancy and are finding increased application in the production of metallic parts. It is necessary to track changes of this unfolding technology and develop similar capabilities.

RISKS AND CONCERNS:

Economy and Market Risk:

The Company's growth is linked to that of the automotive industry, which is cyclical in nature. The cyclical nature of the Indian commercial vehicle industry and tractor industry might affect the demand. Since automotive industry, plays a major role in determining the economic growth, any slowdown in the overall economy will affect Commercial Vehicle industry. Increasing competition across all segments may put some pressure on market share.

Input Cost Risk:

Our profitability and cost effectiveness may be affected due to change in the prices of raw materials, power and other input costs. Some of the risks that are potentially significant in nature and need careful monitoring are Raw Materials prices, availability of Power etc. Currently, the power is a scarce resource, but it is available through inter/intra state open access at higher cost. The price is highly volatile; hence it will affect the profitability.

OUTLOOK:

Governmental new initiative for overall growth of industry including Make-in-India concept and export promotion schemes will positively steer the overall market as compared to last couple of years. Your Company expecting better business potential from Export market in years to come.

Human Resource is a continuous and ever evolving function at our Company. The Company believes that human resources enable the Company to consistently meet customer requirements and deliver exceptional performance for growth. ^{*} At the beginning of the Financial Year, shareholding of the promoter group is given as per the data made available to the Company from Registrar and Share Transfer Agent. Also due to change in definition of 'Relatives' under the Companies Act, 2013 few shareholders who were earlier considered as promoter are out of the purview of the definition. Later on, it was realized to the Board that the data relating to shareholding pattern of the Promoter needs to be streamline as per the revised definition and accordingly during the year Promoter group reshuffled and appropriate correction made in the data of Registrar and Share Transfer Agent.

iii) Change in Promoters' Shareholding (please specify, if there is no change)

^ In the Financial Year 2014-15, they were categorized as Promoter, however, due to change in definition of 'Relatives' under the Companies Act, 2013 few shareholders who were earlier considered as promoter are out of the purview of the definition. Later on, it was realized to the Board that the data relating to shareholding pattern of the Promoter needs to be streamline as per the revised definition and accordingly during the year Promoter group reshuffled and appropriate correction made in the data of Registrar and Share Transfer Agent.

ANNEXURE - B TO THE AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act").

We have audited the internal financial controls over financial reporting of **CREATIVE CASTINGS LIMITED.** ("the Company") as of 31st March 2016 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly

reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of the management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31^{st} March 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
